The screenshot shows the GitHub web interface for a repository named "Website-Personal" by user "RanaYodaHanifah". The file "index.html" is open in the code editor. The code is HTML, starting with a DOCTYPE declaration and a head section containing meta tags for charset, title, viewport, keywords, and description. It also includes links for a favicon, Google Fonts, and various CSS libraries (Bootstrap, Font Awesome, Slick, Lightbox). A tooltip is visible over the code, stating "Code view is read-only. [Switch to the editor.](#)".
