The code is HTML, starting with a DOCTYPE declaration and a head section containing meta tags for charset, title, viewport, keywords, and description. It also includes links for a favicon, Google Fonts, and various CSS libraries (Bootstrap, Font Awesome, Slick, Lightbox). A tooltip with the text 'Code view is read-only. [Switch to the editor.](#)' is displayed over the code, with an arrow pointing to the 'Switch to the editor' link. The interface includes a top navigation bar with links for Code, Issues, Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings. The file status bar at the top indicates '502 lines (480 loc) · 28.9 KB'.
